Re: TD-21024: Tomahawk Rd – Wenonga Rd to Sagamore Dr

Dear Valued Customer:

In conjunction with the City of Mission Hills Capital Improvement Projects for 2022, WaterOne is preparing to begin work in your area to replace a water main. We wanted to provide you with information about the project and how we are working to minimize disruption to the neighborhood.

Project Location: Tomahawk Rd between Wenonga Rd and Sagamore Dr. This project has been broken into four phases with this starting at the west end going east. The three remaining phases will follow in sequential order.

Project Description: We will be replacing existing 6-inch and 8-inch water mains with a new 6-inch and 8-inch water mains.

Project Timeline: For Phase 1, we plan to start near the end of September 2021. Overall, the project will take 4 to 5.5 months with restoration being completed in phases as well.

Staying Informed: Brief water outages of less than 4 hours will be necessary. To inform you of water outages, WaterOne is a member of a mass notification service called NotifyJoCo. **In order for you to be notified of outages in your neighborhood, please go to www.NotifyJoCo.org to register your contact information and location preferences.** If your location preferences are within the WaterOne service area, you will automatically be signed up to receive notification from WaterOne through NotifyJoCo, regardless of the boxes you check. Please note that if you select notifications from municipalities or other "participants" you may receive **NON-emergency** information from them. You can customize your notification preferences at any time by logging back on to www.NotifyJoCo.org. If you don't have computer access, please call 913-826-5555 for assistance with registration. Registration by phone may require several days for a call back from NotifyJoCo. WaterOne strives to minimize disruptions, so we appreciate the opportunity to keep you informed.

Traffic Impact: Lane closures along Tomahawk Rd will be required. In addition, intermittent lane/road closures will be necessary in the area. Please follow the detours.

Point of Contact: If you have any questions or concerns, please contact me at (913) 895-5732 or via email dewilliams@waterone.org.

SPECIAL NOTICE: During the construction process, WaterOne will have open excavations, equipment/vehicles and personnel in the area. Please be sure to pay extra attention to your surroundings as we want to ensure the safety of pedestrians, WaterOne personnel and equipment/vehicular traffic. Also, if you are along Tomahawk or at the intersection of one of the listed streets and have a sprinkler system, underground dog fence, heated driveway, and/or other private utilities located within the Right-of-Way, please let me know about these ahead of time. Having this information will help us minimize damage and expedite work.

We appreciate your patience as we work to ensure great water service to your neighborhood. We strive to minimize inconvenience during construction work and excavations in the street right-of-way and within easements. Construction and clean-up will be completed as quickly as possible. Lawn areas that are disturbed will be restored with either seed or sod to match the existing grass. If you have any questions or concerns, please call me or feel free to speak with the construction foreman on site.

Sincerely,

Dana Williams, Project Manager
Engineering Tech II
