

# Mission Drive Complete Closure April 27 – May 5, 2023

The area shown in **red** is closed and not passable by vehicles, bicyclists, or pedestrians. For your safety, please avoid the work area.

WaterOne is replacing their water main in the intersection at Verona Columns which is located at the confluence of Mission Drive/Overhill/Ensley. Due to the unstable nature of the trench they are working in, WaterOne must close Mission Drive on the west side of the intersection until the work is complete. Mission Drive will reopen Friday, May 5. Please follow the marked detour and thank you for your patience during this closure.
